Laser Grey Ceramic and Glass

Transfer Instructions with Mug Press

1 Print on the unprinted side of Laser Grey transfer. Image : **Mirror**
2 Unprinted area can be cut off before transferring the image. Leave a 3 mm border.
3 Stick the Grey transfer using heat-resistant tape on the mug (not on the image and leaving a 3 mm border).
4 For 72 mm mug place special Laser Grey Mug Adaptor.
5a Place the mug with the Teflon sheet in the press.
5b Mug Press: Place the mug with the transfer + rubber band + Teflon (exterior) in the press.
6 Close the press, 175°C /350°F, transfer time 3 minutes.
7 Remove the transfer paper after 5 minutes. (The mug is still warm)
8 Place the mug in a pre heated oven for 5 minutes at 200 °C.
* The image will be glossy and the pottery will be dishwasher-proof after it has been in the oven.
